IMPORTANT HOLDINGS INFORMATION: The information shown above relates to Government Portfolio ("the Portfolio"), the registered investment company in which the Fund invests all of its investable assets. The Fund utilizes a master/feeder structure by investing all of its assets in a master portfolio. Assets are reported at the master portfolio level. The data in the "Value" column represents the market value of the Portfolio's investments. The Portfolio's investments are valued at amortized cost, which approximates market value, in accordance with Rule 2a-7 under the Investment Company Act of 1940 (the "1940 Act"). The amortized cost method of valuation involves valuing portfolio securities at their cost and thereafter assuming a constant amortization to maturity of any discount or premium. The Portfolio's use of amortized cost is subject to its compliance with certain conditions as specified by Rule 2a-7 under the 1940 Act. The Portfolio continues to meet the requirements of Rule 2a-7 that permit it to utilize amortized cost to value its securities. Portfolio holdings are subject to change at any time. Percentages are based on total investments. This information is provided for information purposes only and should not be construed as a recommendation to purchase or sell any security.
